

QS13

12.5Litre Ultrasonic Bath

Ultrawave's **Q-Series** offers outstanding performance for use in scientific and laboratory applications, chiropody, veterinary and many other professional environments.

Incorporating Ultrawave's *Frequency Leap* Technology, homogenous cavitation activity is generated throughout the ultrasonic bath reducing dead spots and standing waves. This provides a more consistent scrubbing action for excellent results.

The **QS13** is a 12.5Litre heated, digital ultrasonic bath.

The menu driven control panel allows simple adjustment of cycle time (0 to 99 minutes), temperature (ambient to 70°C), ultrasonic power and frequency mode for precise and accurate processing.

Combining features such as degas mode, fluid level sensor and a memory card port, the **QS13** offers repeatable and traceable cleaning performance with consistent cleaning results every time.

QS13

12.5Litre Ultrasonic Bath

Construction Case	304 Stainless Steel
Construction Tank	304 Stainless Steel
Front Panel	ABS Plastic
Control	Digital LCD
Overall Dimensions	375 x 345 x 265mm (WxDxH)
Tank Dimensions	330 x 300 x 150mm (WxDxH)
Basket Dimensions	285 x 260 x 110mm (WxDxH)
Maximum Capacity	13.0Litres
Working Capacity	12.5Litres
Ultrasonic Power	200W
Ultrasonic Power (per Litre)	16W/Litre
Operating Frequency	32 - 38KHz <i>Frequency Leap</i>
Maximum Heating Capacity	Ambient - 70°C
Heater Power	300W
Timer	0 - 99 minutes
Mains Connection	220 – 240V (50 - 60Hz)
Drain Outlet	½" BSP VALVE
Lid	ABS Plastic
Basket	Stainless Steel
Gross Weight (inc. lid, basket & packaging)	10.9kg
Net Weight	8.25kg
Warranty	3 Years
