

Ultraclean SPX Technical Data Sheet

Description

Ultrawave's Ultraclean SPX is a strong alkaline detergent suitable for cleaning of moulds, tools and dies.

Applications

Suitable for metal, ceramics and glass. Removal of stubborn soiling, including plastic residues and carbon deposits on mould, tools and dies. Will also remove light rust and light limescale. Not suitable for aluminium and its alloys, and light metals.

Directions for Use

Dilute with water to give a 2% to 5% (20mL to 50mL per Litre) solution before use with water. Ensure thorough mixing of the solutions. Do not mix with other solutions.

The required dosage will depend on your cleaning application and the level of contamination. Items should be rinsed with water and dried immediately after processing. Please refer to the product safety data sheet before use. Use only as directed.

Technical Data

These figures are typical and should not be interpreted as specifications, refer to the product safety data sheet for details

Characteristic	Value/Description
Appearance	Straw
Odour	Characteristic odour
pH (@ 1%)	14

Supplied as 6 x 1Litre Bottles (SKU: F50033) or as 25L Drum (SKU: F00032).

Disposal

Transfer to a suitable container and arrange for collection by specialised disposal company.

Storage

Store in a cool, dry place protected from frost and away from strong acids and oxidizing materials. Store upright in original containers. Shelf-life up to 12months when stored in a cool, dark environment.

Specifications are subject to change for continual improvements
