

Qi-500

33Litre Ultrasonic Cleaner

Ultrawave's **Qi Series** are robust and reliable, delivering outstanding cleaning performance in a wide range of industries. From precision, pharmaceutical and medical device manufacturing to heavy duty cleaning in automotive and engineering processing.

The 2mm thick stainless steel tank provides longevity and durability whilst excellent ultrasonic activity is generated via Ultrawave's *Frequency Leap* technology.

Frequency Leap technology reduces dead spots and promotes homogenous cavitation activity within the tank. This provides a more consistent scrubbing action for highly effective cleaning results.

The **Qi-500** is a 33Litre ultrasonic cleaner with a menu driven, LCD control panel. This allows simple adjustment of cycle time (0 to 99mins or continuous mode), temperature (ambient to 80°C), ultrasonic power and frequency mode for precise and accurate processing.

Incorporating features such as degas mode and a fluid level sensor, the Qi-Series is reliable and durable, giving you consistent cleaning results every time.

Qi-500

33Litre Ultrasonic Cleaner

Construction Case	304 Stainless Steel
Construction Tank	316 Stainless Steel
Front Panel	304 Stainless Steel
Control	Digital LCD
Overall Dimensions	535 x 335 x 350mm (WxDxH)
Tank Dimensions	500 x 300 x 240mm (WxDxH)
Basket Dimensions (internal)	470 x 270 x 140mm (WxDxH)
Capacity	33Litres
Ultrasonic Power	500W
Ultrasonic Power (per Litre)	15W/Litre
Operating Frequency	32 - 38KHz Frequency Leap
Maximum Heating Capacity	Ambient - 80°C
Heater Power	1350W
Timer	0 - 99 minutes or Infinity mode
Mains Connection	230V, 50Hz, 13A
Drain Outlet	½" BSP VALVE
Lid	Stainless Steel
Basket	Stainless Steel
Gross Weight (inc. lid, basket & packaging)	25kg
Net Weight	20kg
Warranty	3 Years
